ABSTRACT

Attitudes of student leaders in high schools throughout the United States were examined in a survey conducted by Who's Who Among American High School Students and Northbrook, Illinois. Subjects were students who had been selected for inclusion in Who's Who during the 1978-79 academic year. Some 23,200 completed questionnaires were analyzed on topics such as national priorities and policies, the draft, energy, drug and alcohol use, religious beliefs, career goals, marriage and sex views, capital punishment, the environment, and the media. Statistical analyses were tabulated by total response; breakdowns by sex, race, geographical region, type of community, age, future plans, grade point average, and family incomes were also included. Introduction

This survey was conducted by "Who's Who Among American High School Students," Northbrook, Illinois, during the summer of 1979 for the purpose of determining the attitudes of student leaders in our nation's high schools. It is the largest independent sampling of this segment of the student population taken annually and this year marks its tenth anniversary.

"Who's Who" believes that, in these rapidly changing times, it is important for the nation to be aware of student opinions and attitudes. Today's teens are not only an important segment of the present voting population, but will be assuming positions of leadership as this country enters the 21st century. Hopefully, as the data from this tenth national survey is circulated and studied, significant trends will be uncovered.

We regard this survey as an educational experiment. We are in no way attempting to promote or negate any political, moral or social philosophy, organization, firm or individual. Because of our contact with student leaders, we believe we are in a position to gather important facts and meaningful information and, therefore, have a corporate responsibility to conduct this survey.

This year's questionnaire is a composite of questions asked over the past nine years. Prior to this survey, the questionnaire was developed with the help of a 25 student Advisory Board and educators across the country.

Although we of "Who's Who" feel that some of the questions and answers are of a private and controversial nature, we do not hesitate to take the responsibility for the project in order to achieve our objective of identifying and measuring student attitudes. We apologize to anyone offended by any of the material presented herein.

Though by no means a reflection of today's "average" student because it is dealing with the opinions of student leaders and high achievers, we feel this survey does give insights into the thoughts of those leaders who set standards and behavior patterns for others to follow.

Of the 355,000 high achievers featured in the 1979 edition of "Who's Who Among American High School Students," 50,000 students whose biographies were received by July 1, 1979 were sent the survey. Some 23,200 completed questionnaires were returned.

These 23,200 responses form the base of the survey. All students surveyed were members of the junior or senior class during the 1978-79 academic year. They were selected for recognition in "Who's Who" by their principals or guidance counselors, national youth organizations or the publishing company because of their high achievement in academics, activities, community service, athletics or their performance in national scholarship or award contests.

The 355,000 students listed in the thirteenth annual edition of "Who's Who" represent approximately 5 percent of the 6,500,000 students who are high school juniors and seniors during the 1978-79 academic year. They represent 20,000 of the 21,000 public, private and parochial high schools in the nation.

This survey was tabulated by computer. Questions were tabulated by total response, breakdowns by sex, race, geographical region and type of community are also included. On questions calling for write-in answers, results are shown of the most frequently mentioned answers.

Participant Data/Demographics

Total Sample: 23,200

Sex

Male	35%
Female	65%

Race

Caucasian	84%
Black	8%
Other	8%

Type of Community

Urban	24%
Suburban	34%
Rural/Small Town	39%
N/A	3%

Geographic Region

Northeastern States (PA, NY, VT, NH, ME, MA, CT, RI, NJ)	15%
Midwestern States (ND, SD, KS, NE, MN, IA, MO, WI, IL, MI, IN, OH)	16%
Southwestern States (AZ, NM, TX, OK)	19%
Southern States (AR, LA, TN, KY, MS, AL, WV, FL, GA, SC, NC, VA, MD, DE, DC)	32%
Western States (WA, OR, CA, ID, NV, UT, MT, WY, CO, AK, HI)	16%

Only Total Information Compiled On Following:

Age of Students Surveyed:

16	14%
17	51%
18	34%
N/A	1%

Grade Point Average of Students Sampled:

A	67%
B	32%
C	1%

Future Plans of Students:

Going to college	97%

Will need scholarship aid other than financial assistance from family to continue education:

Yes	72%
No	24%
N/A	4%

Plans to work during college:

Yes	68%
No	25%
N/A	7%

Family Income of Students Surveyed:

Under $8,000 per year	9%
$8,000-$9,000 per year	7%
$10,000-$15,000 per year	18%
$15,000-$25,000 per year	33%
$25,000 or more	27%
N/A	6%
